### **External Adjustment and the Global Crisis - EconBiz**

After widening substantially in the period preceding the global financial crisis, current account imbalances across the world have contracted to a significant extent. This paper analyzes the factors underlying this process of external adjustment. It finds that countries whose pre-crisis current acco

### **Capital Flows to Central and Eastern Europe - EconBiz**

We examine the evolution of the net external asset positions of Central and Eastern Europe (CEEC) countries over the past decade, with a strong emphasis on the composition of their international balance sheets. We assess the extent of their international financial integration, compared with the adva

### **Philip LANE - Trinity College, Dublin**

Philip R. Lane is Professor of International Macroeconomics and Director of the Institute for International Integration Studies (IIS). He received a doctorate in Economics at Harvard University in 1995 and was an Assistant Professor of Economics and International Affairs at Columbia University during 1995-1997 before joining TCD in 1997.

### **Global Imbalances: Past, Present and Future**

After the inception and, hopefully, the passing of the most dangerous phase of the international financial crisis,

economists have returned to the long favoured subject of global imbalances.
