I was wondering if both all b and y ions are required to determine to order of the amino acids in a peptide. In my opinion knowing only ALL B ions or ALL y-ions is enough to determine the sequence

Das ist Massenspektrometrie - Informationen der DGMS

Mass spectrometry (MS) is an analytical method for the determination of the masses of atoms or molecules. Therefore, MS is a powerful analytical method for the identification and quantification of chemical compounds in fact, there is no compound that is not chemical for the elucidation of their structure, and for the determination
