This volume examines the impact on economic performance of structural policies—policies that increase the role of market forces and competition in the economy, while maintaining appropriate regulatory frameworks. The results reflect a new dataset covering reforms of domestic product markets, international trade, the domestic financial sector, and the external capital account, in 91 developed and developing countries. Among the key results of this study, the authors find that real and

IMF and economic reform in developing countries ...

In this paper we assess the IMF approach to economic reform in developing countries. The impact of IMF program participation on economic growth has been evaluated empirically in a cross-country literature, with little evidence of IMF programs having been successful. **Structural Reforms, Innovation and Economic Growth** reduces the size of the economy and hence the benefits from structural reforms, curbing the government's incentive to carry out reforms in the face of the political cost of implementing them.

The Post-Crisis Growth Slowdown in Emerging Economies and ...

reduction in developing countries. In the boom years, from 2003 to 2007, developing country per In the boom years, from 2003 to 2007, developing country per capita GDP grew by 5.9 percent per year, compared to 2.3 percent in high-income countries.
